FASTCONNECTIONS

PenTeleData®

VOLUME 4 · ISSUE 2
February 2023

Dear Valued Customer,

Welcome to our monthly email newsletter, *Fast Connections*. We appreciate that you've chosen PenTeleData to be a partner in your company's success. This newsletter is one way for us to stay in touch with you but let us know if you need something more. Whether you could use some extra help from our I.T. Services team, would like to add voice services, or just need a faster or additional connection, please don't hesitate to call.Thank you for your business and continued support.

Jaime Mendes
Vice-President of Operations
PenTeleData

OUR FAST CONTEST

What is the fastest wind speed ever recorded on Earth?

One lucky winner will receive a $150 Amazon gift card. Rack your brain and figure out the answer to the brain teaser. Then send us an e-mail with your full name, address, daytime telephone number (where we can contact you), and the answer to the brain teaser below, to chat@corp.ptd.net All entries must be received by 2/28/23.

Good Luck! PenTeleData

PENTELEDATA IS PROUD TO SERVE MANHEIM, PA

Manheim is a charming small-town set in a rural landscape surrounded by sprawling countryside and rolling hills.

Founded in 1762 by Henry William Stiegel, Manheim was a safe haven during the Revolutionary War for the families of Colonial Patriots Robert Morris, the great Financier, Dr. Joseph Shippen, Surgeon General of the Continental Army, and General Richard Bache, the Colonial Postmaster General and husband of Benjamin Franklin's daughter.

Named after Mannheim, Germany and best known for Stiegel Glassworks, Manheim is steeped in colonial history, awash with a wide array of early American architecture and has become an artist and maker's haven.

Present day Manheim offers a mix of dining and retail options within walking distance. Just outside of town, you can tour a working dairy farm and climb a one-hundred-foot silo observation tower at Kreider Family Farms, enjoy award-winning PA wines at Waltz Vineyards Estate Winery & Tasting Room and experience a cast of costumed characters, craft beverages and delicious food at the Pennsylvania Renaissance Faire. On Tuesdays, stop by Root's Country Market and Auction, the oldest single family-run country market in Lancaster County. Root's Market features a produce auction as well as fresh meats, bakery items, handmade crafts, antiques, and collectibles from over 200 stand holders.

Manheim is also home to Spooky Nook Sports, the largest indoor sports complex in the country, complete with rock climbing, an arcade, summer camps, and more.

Manheim has several art galleries, makers' experiences, cozy cafés, unique retail shops, and craft brewery and distillery restaurants, and well-appointed lodging options.

I.T. CORNER

We Can Help Keep Your Remote Workers Secure, Productive, and Supported

Remote working/work from home has become vital. What does that mean for your technology environment? How can you make sure your employees have the right tools and support to be productive no matter where they're working?

As a managed I.T. service provider, we can help resolve your concerns about remote work: what to do when multiple employees at separate locations have technical issues, how to secure workers handling financial data from home, and how to avoid risks to your business overall.

Find out how we can help your remote team succeed at www.penteledata.net/products/it-services.

PenTeleData I.T. Services

WE'VE GOT THE VOICE YOUR BUSINESS NEEDS

Call. Message. Meet.

PENTELEDATA IS HIRING!

Are you looking for some extra money?
We're hiring, including some great part time opportunities! As always, we list the current job openings at **www.ptd.net/careers**.

We are an equal opportunity employer.

FUN TECH FACTS

More than 6,000 new computer viruses are created and released every month. 90% of emails contain some form of malware.

The Firefox logo isn't a fox. It's a red panda.

Samsung is 38 years and one month older than Apple.

One Petabyte (PB) equals 1024TB. To put this in perspective, a 50PB hard drive could hold the entire written works of mankind from the beginning of recorded history in all languages.

Alexa is always listening your conversations. Alexa stores all your dialogue history in the cloud to improve the Alexa experience.

On average, people read 10% slower from a screen than from paper.

The first computer mouse was made in 1964 by Doug Engelbart. It was rectangular and made from wood!

On average, there is only one reply per 12 million spam emails sent.

Surgeons that grew up playing video games more than three hours per week make 37% fewer errors and have 42% faster completion rate when performing laparoscopic surgery and suturing.

NASA's Wi-Fi Internet speed is 91 GB per second.

The first known computer virus was developed in 1971. Named Creeper, it was made as in experiment just to see how it spread between computers. The virus simply displayed the message: "I'm the creeper, catch me if you can!"
